

(2) If an agency proposes a collection or payment mechanism other than EFT, it may be required to provide a cost-benefit analysis to justify its use. Cost/benefit analyses must include, at a minimum, known or estimated agency personnel costs, costs of procurement, recurring operational costs, equipment and system implementation and maintenance costs, costs to payment recipients, and costs to remitters. Agencies should consult with Treasury to determine the need to include interest costs associated with float in their computations of benefits and costs.

(d) An agency will require the collection of funds by the agency to be made via EFT and the disbursement of funds by the agency to be made via EFT as a provision of new contractual agreements or renewal of existing contracts that impact agency collection or payment mechanisms, when cost-effective, practicable, and consistent with current statutory authority.

**§ 206.5 Collection and deposit procedure exceptions.**

(a) The following collection and deposit timeframe requirements are to be followed in exception cases where EFT mechanisms are not utilized:

(1) An agency will achieve same-day deposit of monies. Where same day deposit is not cost-effective or is impracticable, next day deposit of monies must be achieved except in those cases covered by I TFM 6–8000.

(2) Deposits will be made at a time of the day prior to the depository's specified cutoff time, but as late as possible in order to maximize daily deposit amounts.

(3) When cost-beneficial to the Government, an agency may make multiple deposits.

(b) Any additional exceptions to the above policies are listed in I TFM 6–8000.

**§ 206.6 Cash management planning and review.**

(a) An agency shall periodically perform cash management reviews to identify areas needing improvement.

(b) As part of its cash management review process, an agency is expected to document cash flows in order to pro-

vide an overview of its cash management activities and to identify areas that will yield savings after cash management initiatives are implemented. The Service will evaluate an agency's EFT policy and application, to include mitigating circumstances that may prevent the use of EFT, as part of the cash management reviews.

(c) An agency's cash management reviews will provide the basis for identification of improvements and preparation of cash flow reports for submission to the Service as prescribed by I TFM 6–8000. That Chapter provides requirements for an agency in performing periodic cash management reviews, identifying improvements, and preparing cash flow reports. In addition, the Chapter describes the timing and content of periodic reports that must be submitted by an agency to the Service on progress made in implementing cash management initiatives and associated savings.

(d) The Service will periodically review an agency's cash management program to ensure that adequate progress is being made to improve overall cash management at an agency. As part of its oversight authority, the Service may visit an agency and review all or specific cash management activities of an agency. An agency will be notified in advance of the Service's review and will be required to provide the Service with documentation of the agency cash management review within the timeframes required by I TFM 6–8000.

**§ 206.7 Compliance.**

(a) The Service will monitor agency cash management performance. Part of the monitoring process will include establishing implementation end dates for conversion to, or expansion of, EFT mechanisms, as well as the identification of mitigating circumstances that may prevent the use of EFT.

(b) In cases where an agency fails to meet a scheduled date within its control, or where an agency converts to a less cost-effective transfer mechanism without prior, written Service approval as determined in accordance with § 206.4(c), the Service will send a formal Notice of Deficiency to an agency's designated cash management official.
